

# Clinical Expert Meeting: Biomarkers, Best Practices and Evidence- Based Therapeutic Plasma Exchange Guidelines in 2022

Hear from our panel of experts.  
Register for the webinar now.

Understand the role of plasma exchange in the treatment of  
autoimmune neurological diseases

Join us on **24 August 2022**

This August, our opinion leaders and clinicians will share their experience on the therapeutic management of autoimmune neurological diseases using therapeutic plasma exchange (TPE), including evidence-based clinical practice and patient cases.

## Topics and Speakers

**The Role of Therapeutic Plasma Exchange  
in Neuromyelitis Optica Spectrum  
Disorder: The Importance of Guidelines  
and Patient Selection**

**Dr. Kevin Tan**  
National Institute of Neurosciences  
Singapore

**Acute Disseminated Encephalomyelitis:  
Updates on Biomarkers and Therapeutic  
Plasma Exchange Considerations**

**Dr. Yael Hacoen**  
Great Ormond Street Hospital/  
University College, London  
United Kingdom

**Therapeutic Plasma Exchange:  
Best Practices**

**Kari Mudie**  
**Nurse Practitioner**  
Royal Brisbane & Women's Hospital  
Australia

## Chairperson

**Dr. Tianrong Yeo**  
National Institute of  
Neurosciences  
Singapore
